Ideation Phase Brainstorm & Idea Prioritization Template

Date	16 September 2022
Team ID	PNT2022TMID15077
Project Name	Web Phishing Detection
Maximum Marks	4 Marks

Problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

PROBLE

Malicious links will lead to a website that often steals login credentials such as E-mail credentials, phone numbers or financial information like online banking credentials, credit card numbers and also fake online payment gateways Such websites are called as phishing websites. In order to avoid the malicious websites to attack our systems in the web we need to use several algorithms to detect whether the website we open is safe or not.
